UNIQUE MICROFIBRE CONCEPT

In 1994 Greenspeed®, first in the Benelux, introduced the microfibre technology as the solution for the professional Cleaning Industry. Up till now it still is THE innovation of the past two decades. Since 1994, further developments of these innovative microfibre products and high quality cleaning techniques have continuously been made.

INNOVATIVE MICROFIBRE PRODUCTS

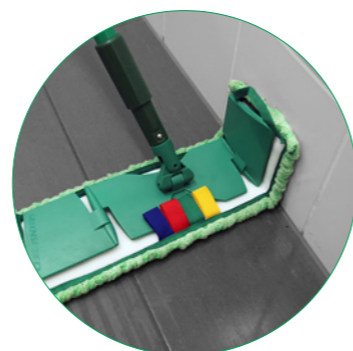

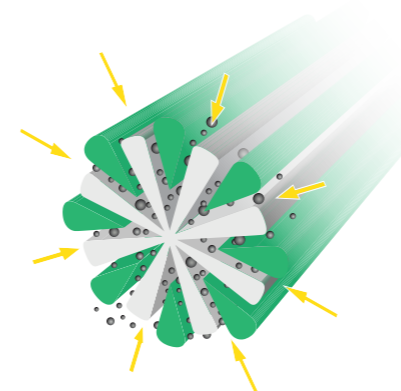

With the wide range of ergonomic products based upon microfibre technology Greenspeed® presents complete unique tailor-made solutions for floors, walls, interior and sanitary areas. Cleaning with Greenspeed® means efficiency, sustainability and working fast, safe and hygienic cleaning result.

The Greenspeed® microfibre products are used worldwide in the professional Cleaning Industry:

- Offices and factories
- Catering and hospitality
- Healthcare
- Recreation and leisure

PROFESSIONAL SERVICE AND SUPPORT

The service oriented employees of Greenspeed® are always available and will gladly advise you. Everyone, from cleaning contractors and distributors to end user may count on our professional support. We make sure you and your clients will get acquainted with the Greenspeed® concept with on the job training, master classes and tailor-made workshops.

FLOORS

SANITARY

THRIFTY, HYGIENIC AND SUSTAINABLE

The Greenspeed® products are manufactured by a unique high quality process. The Greenspeed® microfibre products possess strong cleaning capabilities and a high absorption ability. The optimally splitted microfibre only needs to be damp (if necessary with a minimal quantity of cleaning solution) and the dirt is picked up and retained. The capillary action is a fact! Greenspeed® stands for sustainable, fast, easy and hygienic cleaning.

NORDIC SWAN ECOLABEL CERTIFIED

The Greenspeed® microfibre cloths, mops and HandScrubby Flex comply with the strict environmental, health and quality requirements. The Greenspeed® microfibre cloths are first in the Benelux to be certified with the Nordic Ecolabel.

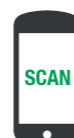

CLEVER APPLICATIONS FOR EVERY CLEANING TASK

The wide Greenspeed® assortment consists of clever and ergonomic products and systems for optimal execution of every cleaning task in the areas: interior, sanitary, floors and walls.

MORE INFORMATION:

The Greenspeed® network operates worldwide. Our specialised advisors would like to present our unique Greenspeed® concept with a free demonstration. Please contact us or visit our website.
