

South Africa GREENSPEED™

cleaning the smart way

SAFIC GOING GREEN WITH GREENSPEED SOUTH AFRICA

GREENSPEED SOUTH AFRICA

Safic has been a leader in South Africa, having won the Mail & Guardian, "Greening the future" award twice and we are proud to announce that Safic will now represent Greenspeed, South Africa. Greenspeed has been leading the professional cleaning industry in Europe for over 20 years. It supplies unique cleaning solutions based on microfibre technology. Greenspeed offers a wide range of microfibre products for all surfaces and a variety of applications for:

- ✓ interiors
- ✓ ablution facilities
- ✓ kitchens
- ✓ laundries
- ✓ floors & walls

CHOOSE SMART CLEANING SOLUTIONS

Safic/Greenspeed is committed to providing smart cleaning solutions which have a real and positive impact on people and the environment. Smart because our products are efficient, innovative and ecological. Greenspeed's microfibres are uniquely split to an optimum level and with a unique capillary action delivering increased cleaning power and a large absorption capacity. You can clean faster and more comfortable with less water and detergents. The Greenspeed products have been thoroughly tested and are certified with the Nordic Swan Ecolabel. For years, Greenspeed has been used by:

- ✓ Cleaning companies
- ✓ Healthcare institutions
- ✓ Offices and factories
- ✓ Recreation parks & hotels
