QUINTAB CLEAN

All-purpose cleaning Tab for
professional maintenance cleaning

safe dosage

in water-soluble foil

protects the environment

www.kleen-purgatis.com

All-purpose cleaning Tab for professional maintenance cleaning

QUINTAB CLEAN

- innovative and highly concentrated premium cleaning product
- easy and safe dosage - no dosage systems needed
- very good separation properties in sewage
- brilliant suitability for usage in cleaning buckets and machines (8-10L)
- skin contact with the tablet is most widely avoidable thanks to water-soluble foil
- less packaging waste - protects the environment
- transparent cost control

Easy handling strong results!

The QUINTAB CLEAN is a highly concentrated premium cleaning tablet that is user-friendly suitable for the use without dosage systems. The tablet is ideal for the use of cleaning machines as well as cleaning buckets of 8-10L.

You can use the tablet perfectly in buildings where it is difficult to install dosage systems. As well the set-up time is being shortened due to the easy handling in transport.

The QUINTAB CLEAN is sealed in water-soluble foil and therefore very skin-friendly and hygienic. At the same time the tablet produces less packaging waste and saves transport and storage costs.

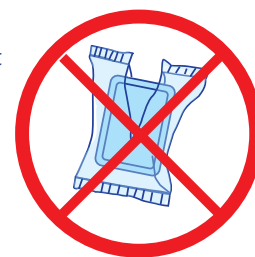

The QUINTAB CLEAN contains highly concentrated ingredients like all other liquid cleaning chemicals KLEEN PURGATIS is known for.

The tablet is ideal for wet and damp wipe procedures for all coated and uncoated floorings.

Directions of use & dosage:

Caution!

Do not open or remove the foil. It contains cleaning agents.

Place the QUINTAB CLEAN in water-soluble foil into a bucket and fill up with water. The cleaning solution is ready to use after approximately 5 minutes. The tablet is made for 8-10L water. In case of strong soiling, please apply solution on the floor and let react, then scrub and collect again. Store in a dry place.

GRANIT TAB F

**Professional cleaning
of deep fat fryers**

Innovative and strong against grease

www.kleen-purgatis.de

Professional cleaning of deep fat fryers

GRANIT TAB F

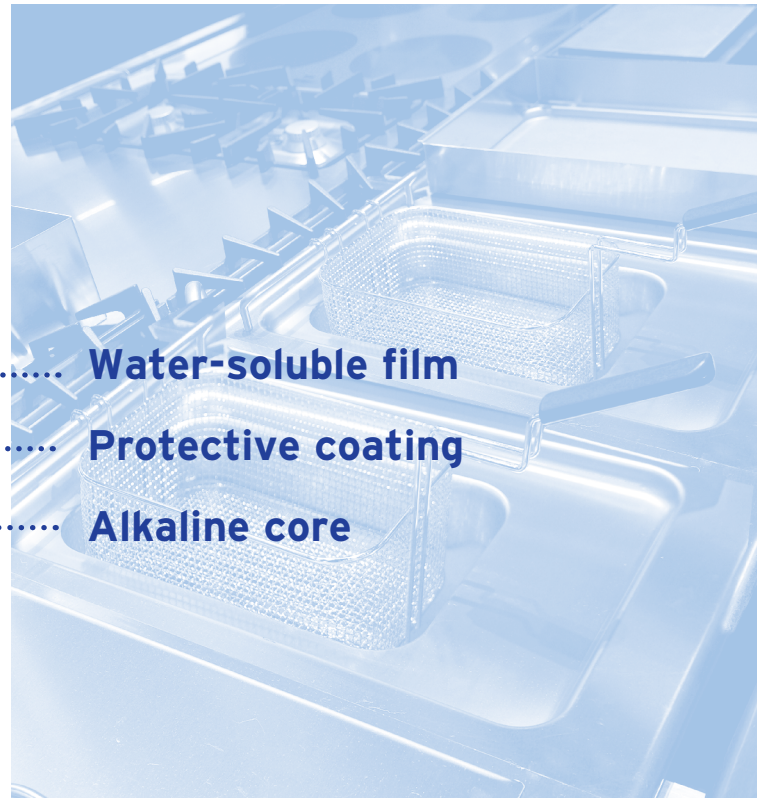

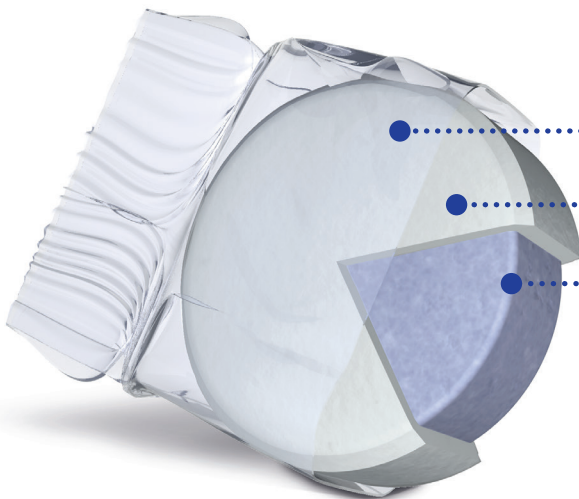

- Extremely powerful when dissolving burnt-on and resinous organic material such as starch residue, charring, grease and proteins.
- Easy and safe to use
- Ensures that the user's skin barely comes into contact with the tab thanks to the water-soluble film
- Special effective agent combination

Easy to use

strong against grease

The newly developed tablet generation from KLEEN PURGATIS enables a largely contact-free application thanks to the use of a water-soluble film whilst also retaining a high level of alkalinity and excellent cleaning performance.

This product benefits from an innovative production process where the highly alkaline, cleansing tablet core is coated with a layer. The water-soluble film offers additional protection.
