GRAVITY X3

The new parts washer - always on hand

GRAVITY X3

MOBILE MULTI-TASK PARTS WASHERS

The mobile multi-task parts washer is a low pressure and perfectly ergonomic machine.

Combined with the Blueliquid solution, it perfectly cleans all brake systems or mechanical parts without any solvent, dust or fiber projections.

WORKING PRINCIPLE

MOBILE GRAVITY PARTS WASHER

Available either in cold, compressed air or electrical (38°C) version. Totally autonomous - can connect to an air compressed alimentation.

ECOSAF BIO LIQUID

Water-based cleaning solution based on specific surfactants, non-toxic and non flammable.

SOCKET FILTER

Pocket filter 50µm to maintain constant cleaning quality and limit maintenance.

ASSETS

SAFETY & OPERATOR'S HEALTH

Permanently replace all types of solvents

MOBILE & ERGONOMIC

Close at hand cleaning table fitted with all necessary tools.

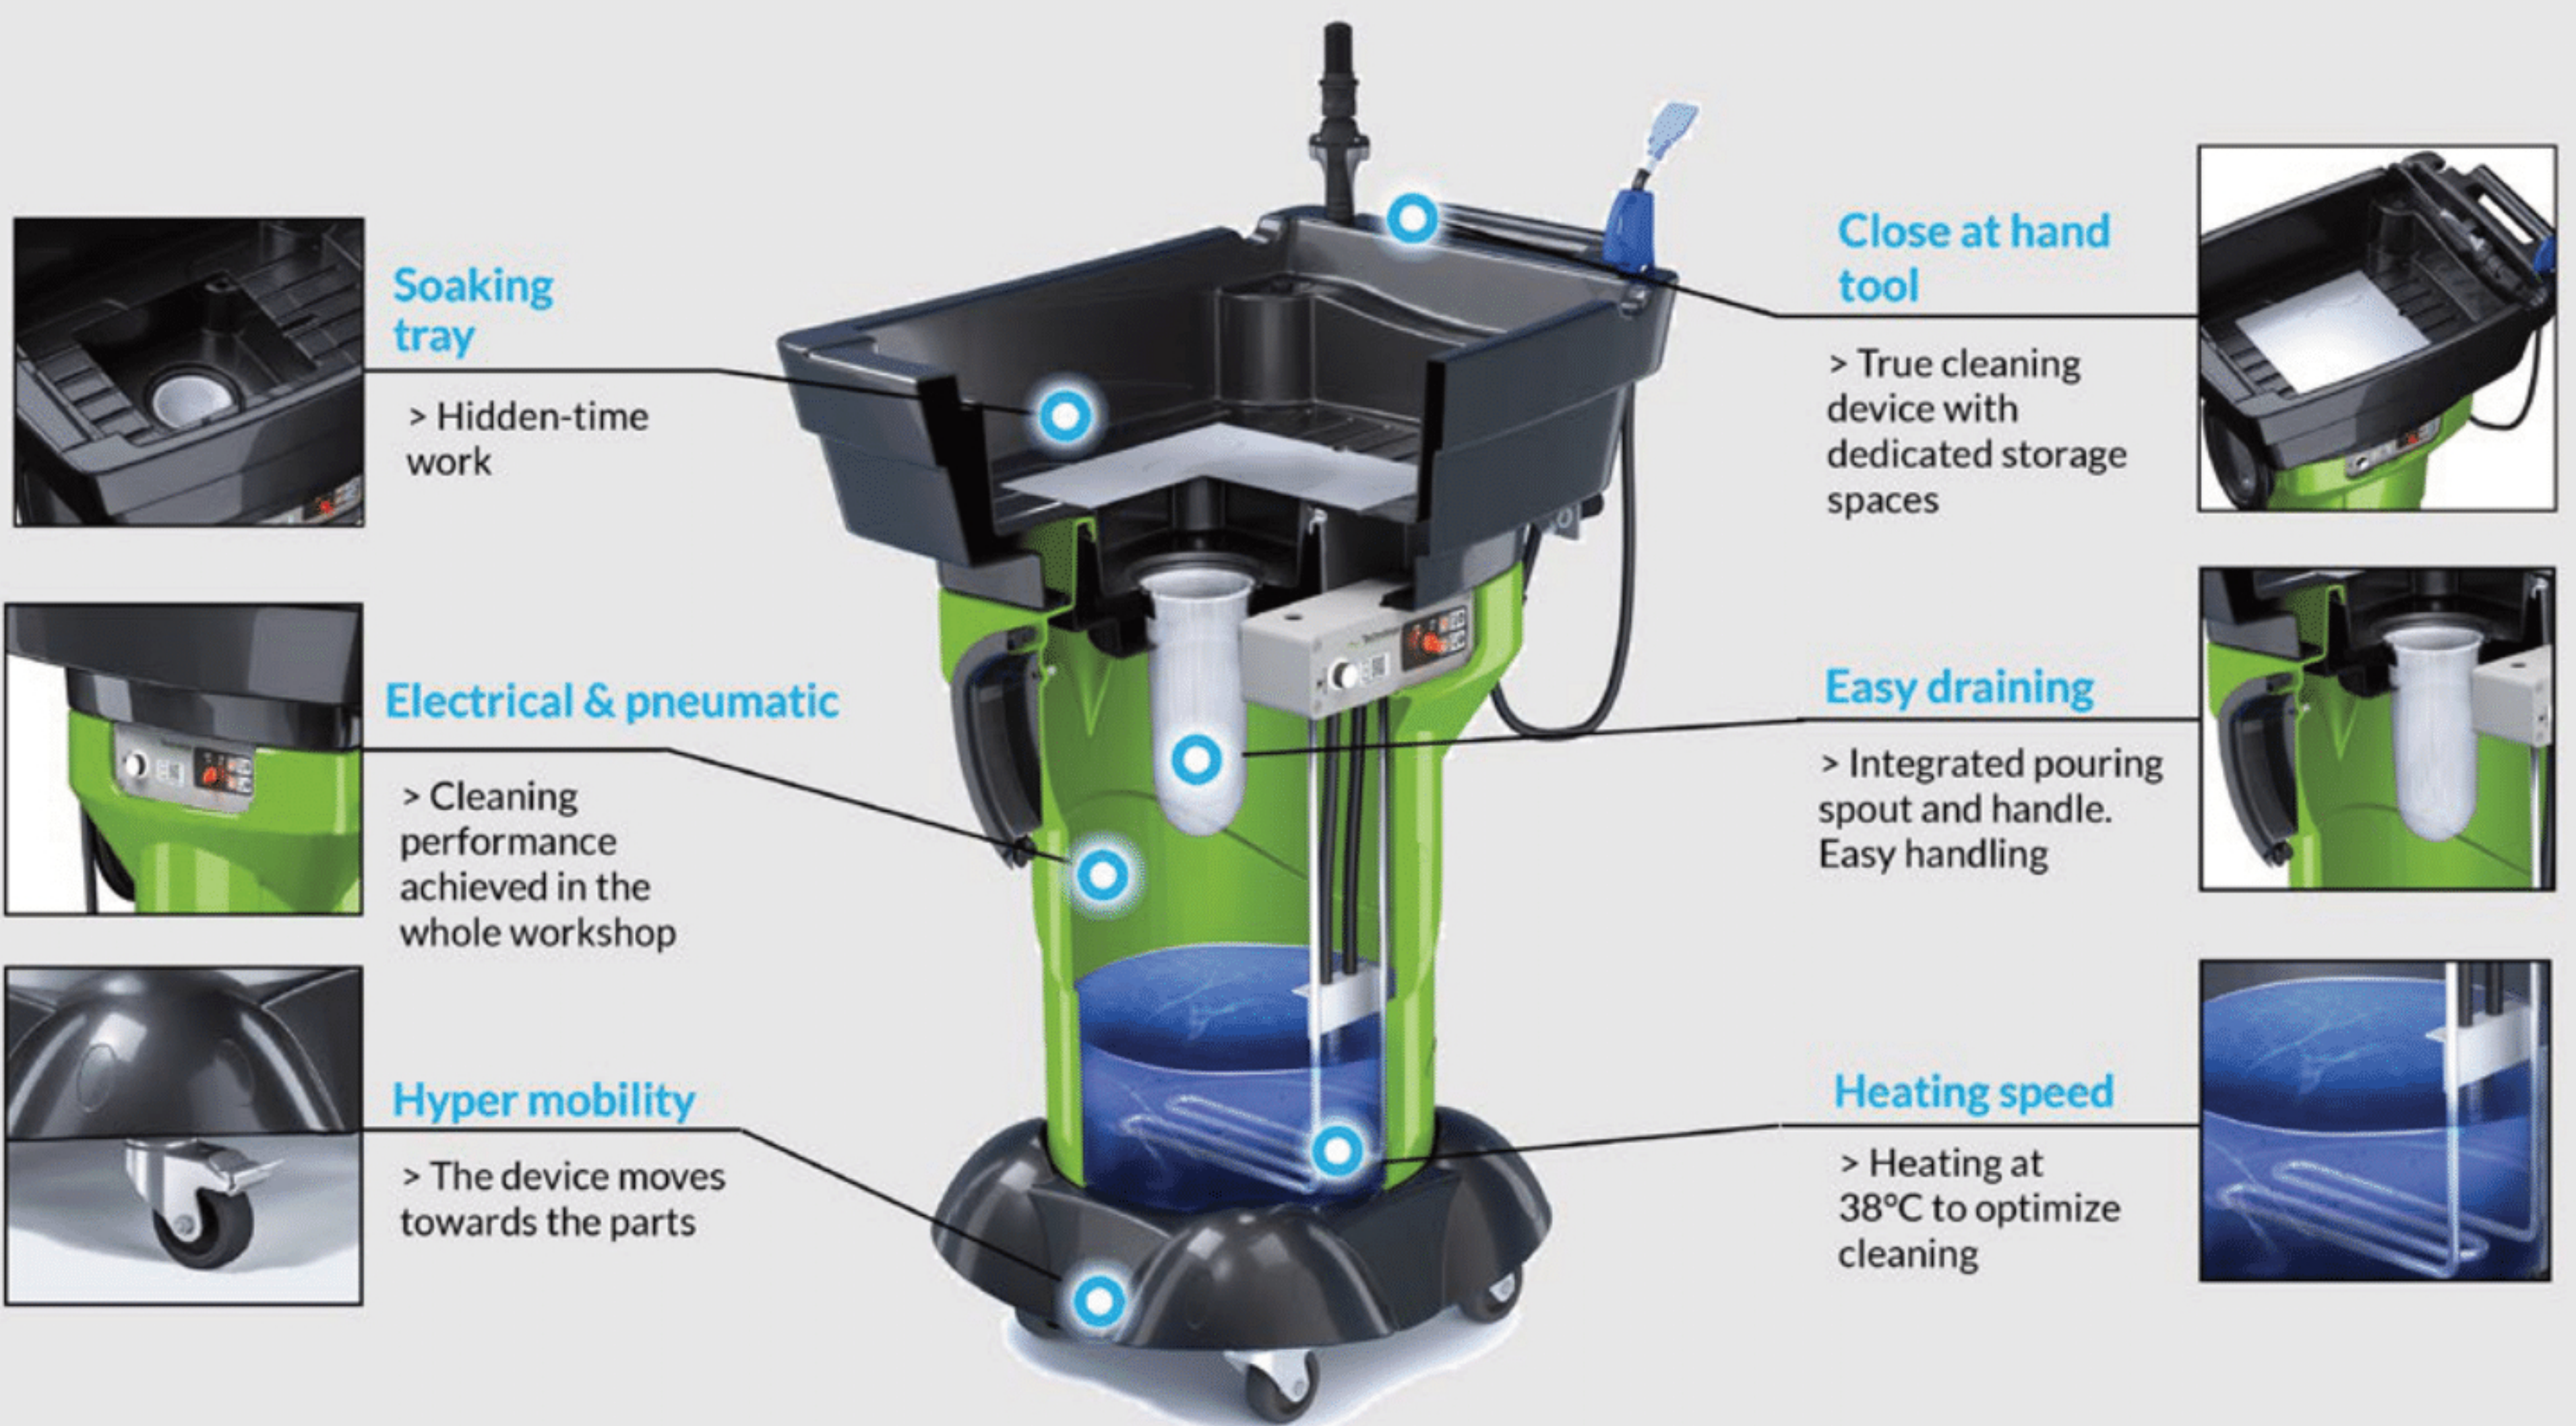

EFFICIENT & MULTI TASKS

Perfect for mechanical parts cleaning and brakes system.

COST SAVINGS

Limited service and maintenance costs.

LIMITED WASTE & MAINTENANCE

SOLVENTS / DETERGENTS PARTS WASHER Frequent drainings and product

MOBILE PARTS WASHER Filtration system to keep constant bath quality and limit maintenance

COMPLEMENTARY RANGE

Panther Bio parts washer - 100L

PANTHER BIO PARTS WASHER

PREMIUM BIOLOGICAL PARTS WASHER

A NEW ECOLOGICAL TRIP IN YOUR WORKSHOP

HEALTH & SAFETY

EFFICIENCY

Savings

Environment

A NEW GENERATION OF PREMIUM BIOLOGICAL PARTS WASHER

THE OCEAN SUNSET CLEANS YOUR PARTS WITHOUT SOLVENT, WHILE RESPECTING OPERATORS' HEALTH AND THE ENVIRONMENT.

The biological parts washer is based on a natural regeneration using Human's body principles : temperature with bath heated at 38 - oxygen thanks to the oxygen pump - and micro-organisms to digest / kill the oil and pollutants

This process ensures a cost effective and efficient maintenance.

THE OCEAN SUNSET IS THE SOLUTION FOR MAINTENANCE OPERATION

PREMIUM PARTS WASHER

PERFORMER PARTS WASHER

ECOLOGICAL PARTS WASHER

OPTIMAL CLEANING PROCESS

- Biological Parts Washer heated at 38°C for a high class maintenance cleaning through the brush, the soaking or the sprinkle. No more solvent.

MOBILITY & SIMPLICITY

- Mobile thanks to its 4 fitted wheels. Quick installation and mobility within the workshop.

HIGH CAPACITY

- 30L soaking area
- 100L capacity
- Equipped with a sealed lid to limit evaporation

ECOSAF BIO LIQUID

Cleaning solution for Biological Parts Washer

Water based solution composed of specific surfactants, non-toxic and non-flammable.

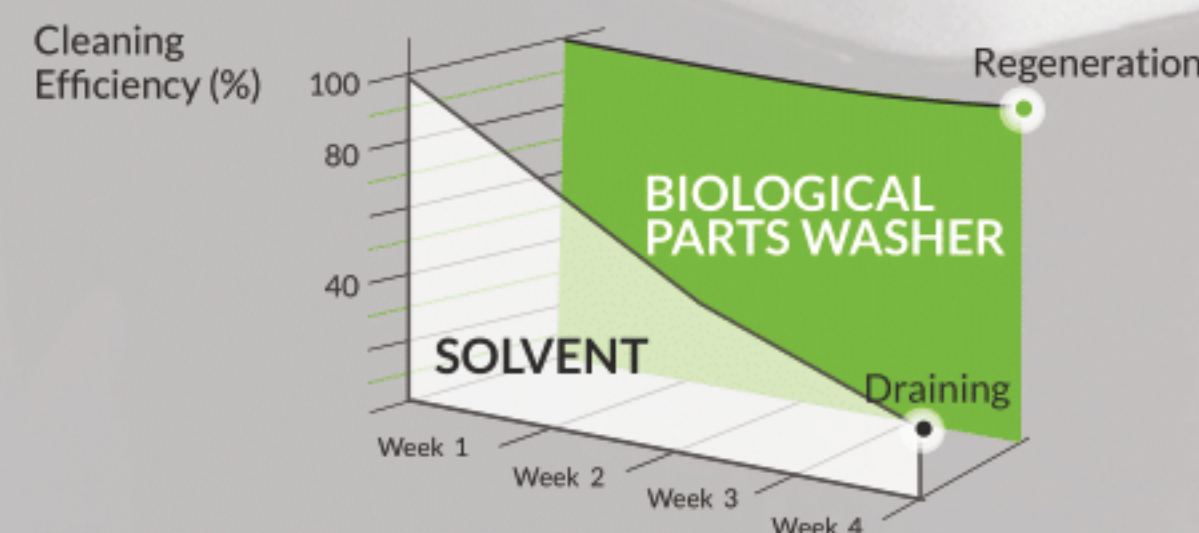

ECOSAF BIO TABS

Concentrate of microorganisms for Biological Parts Washer

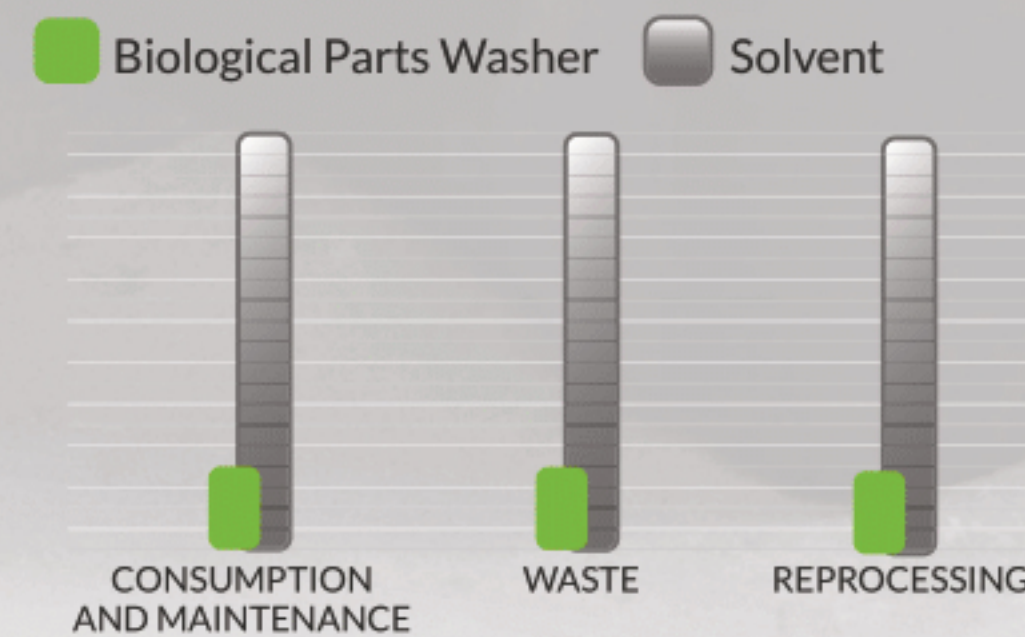

Blue Remedis® concentrate of microorganisms continuously regenerating the solution.

CANCEL EXPENSIVE AND REGULAR DRAIN OF SATURATED BATH

MINIMIZE WASTE AND MAINTENANCE

OPERATORS' HEALTH

Solvent Free - Optimal Health & Safety conditions.

SAVINGS

Cost Control. No more inconvenient regular drain thanks to the action of the class 1 microorganisms.

ENVIRONMENT

Minimizes waste and helps protecting the environment.
